ITS TIME TO MEET OUR OFFICERS

## President

Hey, guys! This is my second year as president, so I'm looking forward to this new year, getting more stuff done and accomplishing everyone's goals. Something that I think would be really cool is if we ran the VOA like it's King Arthur's round table and sent people out on quests and things.

My overarching goal for this year is to get our VOA moving on it's own like gears in a clock so that when the time comes and the year's over, the next group of officers will be able to come in and know exactly what they're supposed to do. Here's to a great year in Venturing!

## Vice President of Program

I'm Dakota Benway, I'm 16 years old. I'm junior at Wilton High school. I'm in Crew 584 out of Wilton. I currently hold the V.P. of Programs in my Crew.

My goals for Venturing, is to get more people involved. I would also like to see new faces in the VOA.

I want new activities to start happening. Bring in some new ideas so we will never get bored or feel like we are doing the same thing every year. I want us all to have fun!

## Vice President of Communications

I'm looking forward to serving the Council another year as VP of Communications. I think we've got a pretty good thing going here, my goals for this year are to diversify the our communication. Getting more people involved would mean that we'd each have more time to put into the different aspects of the job. If you think this newsletter is cool and would like to help publish it, then I've got just the thing for you.

I'd also like to work more on how we advertise Venturing for recruitment, working person to person and at different events to get more people.

## Vice President of Administration

Hey hey everybody! My name is Erika Delp, and I'm the new Vice President of Administration.

My vision for the following year is to not only see crew membership increase, but also to see an increase in the number of Venturers actually making advancements towards the new Venturing awards. It's a brand new system so let's get a good start, and lay a firm foundation for the future of Venturing!
